Subject: BDCP toxins

Hi Erin,

i am working on the report review for the BDCP appendix D but won't have anything close to completion until the end of the day. if you need something sooner, feel free to call Ex. 6 - Personal Privacy and i can send something off of discuss it with you.

in the interest of time/efficiency, do you want my comments on the entire document or just the mercury part (my specialty)?

thanks,
Jacob
